

A blurred office scene with people working at computers, overlaid with a warm orange and yellow light effect. The InnoTech logo is in the top right corner.

INNOTECH[®]

Re-imagining
technology with you

TEAM AS A SERVICE Top-Notch Nearshore by InnoTech

Flexible, cost-effective and highly talented
multi-disciplinary teams near you in a blink of an eye

NearTech: IT factory service model made easy

Our Center of Excellence operates under a flexible model that combines the best of face-to-face and remote work to deliver tailored services in record time. From our headquarters in Portugal, we combine with DevOps to bring the best of technology to projects across Europe.

TEAM AS A SERVICE

Do you sometimes wish that you could manage your tech teams with similar flexibility, speed, scalability, quality and cost-effectiveness as you manage your Cloud resources?

Well, now you can.

At InnoTech we have brought team allocation into the Cloud era. You decide the level of flexibility you are comfortable with, you choose the profiles required, you set the budget constraints and you keep track of the progress in real-time.

FLEXIBLE AND HASSLE FREE

TALENT SEARCH

InnoTech is part of a large consultancy group. We most likely already have the profiles you need internally, but we will also search for them if required.

COST MODELS

Not ready for a full flagged “pay-as-you-go” model? We also work with time-and-materials and even with fixed cost projects.

PEOPLE MANAGEMENT

We have an experienced HR team that will do all the heavy lifting regarding people management. We like our consultants to be happy and committed and we work hard for it.

WHAT IS THE SECRET?

No secret, really. Our teams are agile-driven, so it's all about setting priorities and getting the job done, while keeping everybody in the loop on a daily basis.

WHAT PROFILES WILL MY TEAM HAVE?

A team can go from one Developer up to a set of multi-disciplinary squads with Developers, DevOps, Scrum Masters, QA Technicians and Architects, partially or fully allocated.

WHAT TECHNOLOGIES DO YOU WORK WITH?

We work with all technologies, we challenge our people to become multi-skilled consultants, passionate about technology as a whole and eager to learn new things.

WE ARE:

A nearshore model powerhouse.

WE DELIVER:

Talent-driven innovative technology.

Entirely optimized teams featuring only best-in-class players.

ABOUT INNOTECH

InnoTech is a dynamic IT company that helps businesses grow through innovation and technology. It all happens when our top-of-the-game talents get to play.

01

We have the best solutions and team to boost our client's businesses. Our service is partnership oriented, since your success is ours as well.

02

Our team is challenged every day in different working environments and that makes us more flexible, enthusiastic and agile.

03

Excellence comes with experience. We never stop expanding and looking for new projects and challenges. That is why we are always ready to be your "go-to" choice.

04

We believe the more engaged a team is, the more value it delivers. We are just as much an IT Company as a Connection Company.

05

We dare to be different, to be ambitious, to dream big, to deliver value like no other.

Do you need a tech partner and highly talented teams to enable or enrich your next project?
